

Geological Society of Australia Earth Science Student Symposium Tasmania

GESSS-TAS

16th November 2018

gesss-tas.wixsite.com/2018

The Tasmanian Division **GSA Earth Sciences Student Symposium** welcomes your abstract submission for oral or poster presentation. The symposium will be held on the 16th November 2018 at the University of Tasmania's Discipline of Earth Sciences.

The GESS Symposium will bring together undergraduate, honours, masters and doctoral students in a forum where they can present research to the local scientific community, gain experience in communicating research findings, promote their talents to future employers, and expand their knowledge on other research areas.

Submissions are invited from disciplines within the fields of earth, ocean, atmospheric and environmental sciences. We are seeking research that you are particularly proud of, and work that can benefit other students through sharing of your process, findings, and experience. We also welcome submissions from research professionals and academics, particularly of past work presented at other conferences that showcase your own method/process and development as a successful researcher.

We strongly encourage you to come along and take advantage of the symposium to engage with students and professionals from other earth science-related fields, take in local examples of leading scholarly research, and explore future collaborative opportunities.

The abstract submission period is from August 30th to September 30th.

If you are interested in participating, please email your abstracts to

gesss.abstracts.tas@gmail.com.

Kind regards,

Sian Tooze and the GESSS-TAS organising committee

GESSS-TAS CONFERENCE DETAILS

Date: 16th November 2018

Venue: University of Tasmania, Discipline of Earth Sciences, Geology Lecture Theatre

Cost: Free for students and GSA members

Abstract submission and registration deadline: 30th September 2018

Presenting authors of the highest scored abstracts will be invited to share their work through oral or poster presentation.

Notification to presenters: 20th October 2018

ABSTRACT SUBMISSION DETAILS

- Submit your abstract using the provided template
- Abstracts are limited to 250 words
- Please follow style guide provided in abstract template

We are interested in *your* work. The emphasis of the abstract should be what the *problem* or *question* is that *you* are working on. *Why you* think it is important. What work *you* have undertaken to address the *problem* or *question* and what *your* results are.
